

WEBSITE DISCLAIMER

NexStep Robotics / Robot ART B.V.

1. Company and Brand Information

NexStep Robotics is a brand and trade name used by Robot ART B.V., a private limited liability company incorporated under the laws of the Netherlands.

NexStep Robotics is not a separate legal entity. All commercial and legal activities conducted under the NexStep Robotics name, including but not limited to marketing, quotations, sales, delivery, engineering, integration, commissioning, service and support, are carried out by or under the responsibility of Robot ART B.V.

Where this website refers to “NexStep Robotics”, “NexStep”, “we”, “us” or “our”, such references shall, where applicable, be understood as references to Robot ART B.V.

Legal entity	Robot ART B.V.
Brand / trade name	NexStep Robotics
Country of establishment	The Netherlands
Chamber of Commerce (KvK)	78718422
VAT identification number	NL 861506625 B01
Registered/business address	Bernhardlaan 54b, 2421CE Nieuwkoop, the Netherlands
E-mail / Telephone	info@robotart.nl , +31(0)85- 3035320

2. Purpose and Information on this Website

The information provided on www.nexsteprobotics.com is intended for general commercial and technical information purposes only.

This website may contain information relating to industrial robots, collaborative robots (cobots), robotic systems, machine tending, palletising, welding applications, vision systems, grippers, end-of-arm tooling, safety equipment, software, third-party equipment and complete or partially integrated robotic solutions.

Unless expressly confirmed in writing by Robot ART B.V. in a quotation, order confirmation or agreement, information published on this website does not constitute a binding offer, contractual specification, guarantee, warranty or commitment.

No rights may be derived solely from information, specifications, images, videos, documents or other content published on this website.

3. Products and Technical Specifications

Robot ART B.V. makes reasonable efforts to ensure that the information published on this website is accurate and up to date.

Robots, software, components and robotic applications are, however, subject to continuous technical development.

Robot ART B.V. and/or the respective manufacturers therefore reserve the right to modify, improve, replace or discontinue products and to change specifications without prior notice.

This may include, but is not limited to, changes to:

- product design and appearance
- dimensions and weight

- payload and reach
- speed and cycle time
- repeatability and accuracy
- hardware and components
- software and functionality
- safety features
- communication interfaces
- compatibility
- technical performance
- available options and accessories

4. Brochures, Datasheets and Downloads

Brochures, datasheets, manuals, technical documents, drawings and other downloadable materials made available through this website reflect the information available at the time of their publication or revision.

Such documents may be modified, replaced or withdrawn from time to time without prior notice.

A document downloaded or otherwise obtained from this website may therefore no longer represent the latest version of a product, system, specification, software release or configuration.

Users should verify the latest technical and commercial information with Robot ART B.V. before relying on such information for purchasing, engineering, integration, production or safety-related purposes.

In the event of a discrepancy between information contained on the website, in a brochure, datasheet, presentation or other marketing material and an individually issued quotation, order confirmation, technical project specification or agreement from Robot ART B.V., the applicable contractual documents shall prevail.

5. Application Examples and Performance Information

Robotic applications, videos, demonstrations and examples displayed on this website are intended to demonstrate possible applications of robotic technology.

Actual suitability and performance depend on numerous factors, including but not limited to robot configuration, payload, reach, tooling, workpiece characteristics, machine interfaces, environmental conditions, safety concept, programming, process parameters and system integration.

Cycle times, production capacities, speeds, accuracy, output and other performance figures shown on this website are therefore indicative unless expressly guaranteed in writing by Robot ART B.V. for a specific project.

An application or solution shown on this website should not be assumed to be suitable for another application without an appropriate technical assessment.

6. Robot and Machinery Safety

Industrial robots and collaborative robots must be selected, installed, integrated, commissioned, operated and maintained in accordance with the applicable laws, regulations, standards, manufacturer instructions and required risk assessments.

The designation of a robot as a “collaborative robot” or “cobot” does not automatically mean that the complete application can be operated safely without additional protective measures.

The safety requirements and appropriate protective measures must be determined for each individual application and installation.

Information provided on this website does not replace a machine- or application-specific risk assessment, safety analysis, conformity assessment, technical documentation or other assessment required under applicable law.

Responsibility for the conformity and safety of a complete machine or installation shall be determined in accordance with applicable law and the contractual scope of supply and responsibility agreed between the parties.

7. Third-Party Products, Manufacturers and Trademarks

This website may contain information, photographs, videos, logos, trademarks, product names, specifications and other materials relating to products manufactured or supplied by third parties.

All third-party trademarks, trade names, product names, logos and intellectual property rights remain the property of their respective owners.

References to third-party manufacturers or products do not imply that Robot ART B.V. owns the relevant brands or intellectual property rights.

Technical specifications and other information relating to third-party products may be changed by their respective manufacturers without prior notice. Robot ART B.V. cannot guarantee that such third-party information remains complete, accurate or current at all times.

8. Intellectual Property

Unless expressly stated otherwise, all rights relating to the original content and design of this website, including texts, graphics, photographs, videos, illustrations, application descriptions, logos and other materials created by or for Robot ART B.V. or NexStep Robotics, are owned by or licensed to Robot ART B.V.

No part of this website may be reproduced, distributed, commercially exploited, modified or otherwise used without prior written permission from Robot ART B.V., except where such use is permitted by mandatory applicable law.

All rights relating to third-party materials remain vested in their respective rights holders.

9. External Links

This website may contain links to websites, documents or resources operated or provided by third parties.

Robot ART B.V. has no control over the availability, accuracy, security or content of external websites and accepts no responsibility for their content.

The inclusion of a link does not necessarily constitute an endorsement of the relevant third party, its products or its services.

10. Limitation of Liability

Robot ART B.V. takes reasonable care in compiling and maintaining this website. However, to the fullest extent permitted by applicable law, Robot ART B.V. does not guarantee that all information on the website is complete, accurate, error-free or continuously up to date.

To the fullest extent permitted by applicable law, Robot ART B.V. shall not be liable for losses or damages arising solely from the use of, inability to use, or reliance upon information, specifications, calculations, illustrations, videos, downloads or other materials made available through this website.

Nothing in this disclaimer excludes or limits liability where such exclusion or limitation is prohibited by applicable mandatory law.

Liability relating to products, systems, software, engineering, integration, commissioning, services or other contractual activities shall be determined by the applicable agreement and the terms and conditions applicable to that agreement.

11. Quotations, Agreements and General Terms and Conditions

Unless expressly agreed otherwise in writing, quotations, orders, deliveries, services and agreements entered into by Robot ART B.V., including business conducted under the NexStep Robotics brand or trade name, are subject to the applicable Koninklijke Metaalunie Terms and Conditions (Metaalunievoorwaarden), provided that these terms have been validly declared applicable to the relevant transaction.

The applicable Metaalunievoorwaarden are provided or made available in connection with quotations, orders and/or agreements where required.

The website and this disclaimer do not replace the contractual terms applicable to an individual transaction.

In the event of any inconsistency between general information published on this website or in marketing materials and the specific contractual documentation relating to an order or project, the specific contractual documentation and the applicable terms and conditions shall prevail.

Customers and other contracting parties are responsible for reviewing the applicable terms and conditions and contractual documentation before entering into an agreement with Robot ART B.V.

12. No Contractual Relationship Through Website Use

Accessing or using this website, downloading documents, submitting an enquiry or requesting information does not in itself create a contractual relationship with Robot ART B.V.

A contractual relationship arises only when established in accordance with the relevant agreement between the parties.

Prices, delivery times, specifications, configurations, availability and other commercial information displayed on the website are non-binding unless expressly confirmed in writing by Robot ART B.V.

13. Applicable Law and Jurisdiction

This website and this disclaimer shall, to the extent permitted by applicable law, be governed by the laws of the Netherlands.

For quotations, orders, deliveries, services and other contractual relationships with Robot ART B.V., the provisions regarding applicable law, jurisdiction and dispute resolution contained in the relevant agreement and/or the applicable Koninklijke Metaalunie Terms and Conditions (Metaalunievoorwaarden) shall apply.

Nothing in this disclaimer is intended to override mandatory provisions of applicable law or any contractual provision that expressly applies to a specific transaction.

14. Changes to Website, Products and Disclaimer

Robot ART B.V. reserves the right to modify, update, replace or remove information, products, specifications, documents, downloads and other content from this website at any time and without prior notice.

Robot ART B.V. may also amend this disclaimer from time to time.

The version published on this website, together with its stated revision date, represents the current version of the website disclaimer.

LEGAL NOTICE

NexStep Robotics is a brand and trade name used by Robot ART B.V. and is not a separate legal entity. All commercial and legal activities conducted under the NexStep Robotics name are carried out by or under the responsibility of Robot ART B.V.

All rights reserved. Product designs, specifications, technical data, software functionality and other product information are subject to change without prior notice.

Unless expressly agreed otherwise in writing, the applicable Koninklijke Metaalunie Terms and Conditions (Metaalunievoorwaarden) apply to quotations, deliveries and agreements of Robot ART B.V., provided that these terms have been validly declared applicable to the relevant transaction.
